An Engineer's Flot.

There was a terrible panie the other day on an excursion steamer on Gremmener lake. There were 250 pupils of a public school on board the steamer. When the centre of the lake had been reached, the engineer of the steamboax, a man named Stager, appeared on the deck. "Facchers and children," he said, "say your last prayer, as I intend to blow up the steamer." He would do it, he declared, to revenge himself on the boat master. A frightful panie prevailed, and members of the crew threw themselves on Stager and bound him with ropes. An investigation showed that the villam had so fired the engine that an explosion was imminent. Boats were immediately lowered and the screaming children leaped into the waster, but boats arrived from shore and everyone was recond. Within a minute after the last person was taken off the steamer exploded. Stager made a full confession. He is not thought to be insane.

### Fasted For 100 Day

Mrs. Henry Ingram, of Calhoun County.
Mich., has entered upon the 100th day of
her record-breaking fast. During this
period she has not taken a morsel of food
of any kind and does not aspear to need
anything to eat. Her health remains
about the same, and her physicians are
at a loss to account for her condition, nor
are they able to break her fast, which
promises only to be ended in death.

During the past few years the Telescope has published many statements giving the particulars of crives from the use of Dr. Williams Pink Pills, they were all so well authenticated as to leave no doubt as to their complete truthfoiness, but had any doubt remained its last vestige would have been removed by a cure which has recently come under our personal observation. It is the case of Mr. John Allen, a prominent young farmer, of the township of Greenock. Mr. Allen is also well known in Walkerton and the vicinity adjoining it, that a brief account of his really remarkable recovery from what seemed an incurable disease will be of interest to our readers. During the early part of the summer in 1865, while working in the beath Mr. Allen was selzed with what appeared to him to be rheumatic pains in the back and the shoulders. At first he regarded has but a passing attack, and thought that it would disappear in a day or two. On the contrary, however, he daily continued to the head to give up work altogether. From the back the pains shife do to the sight leg and hip where they finally settled, and so completely heipless did he become that he was unable to do more than walk acrose the room, and then only with the sid of crutches. Of course he consulted the doctors, but none of them seemed able to do him any good. People in

In the person of the Rev. John T. Hinchey, of St. Joseph's Caurch. (R. C.) Hamilton, is found one who does the highest credit to the self-secrificing work in which he is engaged. His stindly heart constantly prompts to acts of love and goodness, and in the city of Hamilton all who know him are ready to bear sestimony to his high character and active generosity. A result of neglect. thinking more of others than himself, he habeen a susterer from cold in the need and its almost certain associate, catarra. Heat expands and cold contracts; but there are exceptions. Coal and gas bills are larger in winter than in summer.

I. George English, shipbuilder, have lived in Chatham, N. S., for over forty years. Last spring, I took severe pains in my knee, which, combined with swelling loid me out for six weeks, during which time I endured great suffering. I saw South American Rheumatic Core advertised in the Catham World, and procured a bottle. Within twenty-four hours I was absolutely free from rheumatism, and I have not been troubled with it since."

### Letters Come.

Letters come day
by day telling us
that this person has
been used of dys-

ache, still another of Biliousness, and yet others of various complaints of the Stomach, Liver, Bowels or Blood, all through the intelligent use of Burdock Blood

Bitters.

It is the voice of the people recognizing the fact that Burdock Blood Bitters cures all diseases of the Stomach, Liver, Bowels and Blood.

Mr. T. G. Ludlow, 312 Colborne Street, Brantford, Ont., 2032: During seven years prior to 1856, my wife was sick all the time with violent headaches. Her head was so hot that it felt like burning up. She was weak, run down, and so feeble that she could hardly do anything, and so nervous that the least noise startled her. Night or day she could not rest and life was a misery to her. I tried all kinds of medicines and treatment for her but she steadily grew worse until I bought six bottles of Burdock Blood Bitters from C. Stork & Son, of Brampton, Ont., for which I paid \$3.00, and it was the best investment I ever made in my life. Mrs. Ludlow took four out of the six bottles—there was no need of the other two, for those four bottles made her a strong, healthy woman, and removed every alment from\*which she had suffered, and she enjoyed the most vigorous health. That five dollars saved me lots of may life. And she enjoyed the most vigorous health. That five dollars saved me lots of may life and she enjoyed the most vigorous health. ## THE MAIL

THURSDAY, JUNE 18, 1896.

LO KING BACKWARDS AND FOR-WARDS.

wards.

The have received, since the opening classes, paigns a great namy expressive congratulatory on the course of the mad so be not just so complice end of which goes to show that while expirit of independence is growing at day with so be, the skeleton of a justification of a justification of the state of the part ance out. This is now our rue for all time in the fiture, se pieuse who is it my, the e Matt. Asith our exper-

or the Marca what was to the course as har we sto to the course, and harder ad dated to decelve all a their counteness in it.

Mail opposes the government's roller sook and only because it I to parchase the vote of Queloc expense of Manitona. We have expense of Manitona. We have the course of the state and see

hang a flow counter and it is this: Take my in period agricultural implement harvestes and one of two others excepted of cotton and woolen arioles of clothing, all stationary and books delicing all stationary and books delicing all stationary and books of clothing, all stationary and books of clothing all stationary and books delicing and the stationary and books and compare them with Canadian makes and they will be found not to be more than 5 per cent dearer all around. These in Canadian prices show the Canadian manufacturers of all these goods pocket unconsensity from 15 to 45 per cent from the constituters of Canada. We are told as canadian farmers have a protection so, yes; but in the comparison with the anufacturer they get bealty worsted, or instance we have duties against merican wool, barley, &c., but as we sould not import any of these, if duty fee, as we have them to sell, the duties re no service. In so far as the compution of wheat, butter, cheese &c. of the castern provinces and British Columbia exceeds the production of these sticles in these countries, protection to the Canadian agriculturalist is a help ome clion to when we de-the attention of the average usumer and it is this: Take red agricultural implement and one or two others ex-ception and wealen articles all stationary and books college text books excepted (e) wall paper, most lifter of ex, add the duties to the cost them with Canadian makes

but no farther. It requires no judgement to show protection is no services in sultaneing the prices in the purchasing country that govern, no matter how we wait up the goods by duties, on their way to their destination. Mr. McCarthy's contention is that for every one dollar the consiner of Canada and especially the an-lian far...er makes by protection on his products he loses four in the excessive prices, he has to pay the Canadian...anitacturer, where then is the benefit of high protection.

It was a plank in the Conservative platform in 1878, made by the old chieftan himself, Sir Johnf Macdonald, that the protection was not to be a permanent measure, a reisy a temporary one to enable the home manifecturers to get their machinery perfected and secure the home market. Mr. McCarthy says the time has now arrived for the fulfiller of Sir John Macdonald's pledges, and Mr. W. A. Macdonald says it has not yet arrived—we must yet bear the bleeding of the Canadian manufacturers perhaps so far as he knows a half a century longer. Which is best, gentle readers, to carry out the pledges of sir John Macdonald or bear the consequences of the resolution, of the lesser Macdonald! It is a question of party consistency and illilling at dollars to the Canadian conthe resolution, of the lesser Macdonaid? It is a question of party consistency and nillions of dollars to the Canadian con-site are to boot. We know our advocacy aream is oney for the Manitoba farmers, and yet we will find some of them ex-pressing dissent because it is "agin the party." Thus we are, however, convin-ed will cure all this.

FAIR PLAY.

constituency will do itself honor by giving Manitolea's able champion a majority of 500 at least. If Mr.Postleth-waite would only do the square thing and step sards and solicit sympathy for himself and the country a service now, Mr. McCarthy's majority could not be less than double this number. This is not Miss Fay's prediction but nodoubt, if consulted, she would verify every word of it.

word of it.

There are arguments and arguments, but for mule sense commend us to an article in the Patron's Sentinel of the 3rd inst. over the signature of "F. H" from Boissevain. This chap wants to convey the idea Mr. McCarthy did the country grievous wrong in connection with the second case before the Privy Cannall in patrageners. with the second case before the Privy Council, in not saying in advance the government at Ottawa after the appeal would endeavor to enforce its infamous remedial Bill, and save the country the costs of the appeal. We may say here the nan who belives Mr. McCarthy or any other lawyer should be held responsible for the whims or necessity of any political party neat be a very shallow brained specimenin-leed. The case submitted to the privy council in the second instance was not to sleinethe scope of the government in the matter, but merelly to ascertain whether or not they had the power to do anything. The answer ly to ascertain whether or not they had the power to do anything. The answer of the Privy Council was simply the government had the power to pass remedial legislation, if they thought fit to exercise it. What the public would like to be apprised of is how Mr. McCarthy was to know the government were going to attempt remedial legislation, or the nature of the legislation they were likely to attempt, when it was decided they could proceed if they saw fit to do so. It is really no wonder people are still confused on the school question when Journals will circulate such twaddle as the Sentinel has oirculated for the anusement, certainly not for the edification, of its readers.

The Brandon Times has a "write up-

cation, of its readers.

The Brandon Times has a "write up of all Mr. W. A. These things and clapping on the initials Q. C. every time he puts his name on a poster, the sheet or hotel register constitute his noble deeds for Erandon. He did more, however, he at one time declared himself in the Local House varianthe federated himself in the local House was the meeting the local House for the local House was the local House with the local House the Three cells. wardly jumped the fence after separate

J. Ullian, B. A. 7, 39 Gould Street, 39 Gould Street, 30 Gentlemen,—During the winter of 1892 my blood became impure on account of the hearty food I ate in the cold weather. Ambition, energy and success to viain. My skin became justice, my liver was lumpy and became inactive, my liver was lumpy and the way and nights and patent medicines of every description, but received no benefit. Being advised by a friend to try B. B. B., I am glad to have the opportunity of testifying to the marvellous result. After using three bottles I felt much better, and when the fifth bottle was finished I enjoyed health in the greatest degree, and have done so from that day up to date. Therefore I have much pleasure in recommending B. B. B. B. and poor suffering humanity who miffer from impure blood, which is the begianing and seast of all diseasus.
